

Interface®

Unsere LVT Produktpalette.

Design und Leistung vereint in unserem LVT-Bodenbelag.

Eine Vielzahl an Gestaltungsmöglichkeiten.

Wir haben unsere modularen Bodenbeläge so konzipiert, dass sich LVT und Teppichfliesen nahtlos miteinander kombinieren lassen – ganz ohne Übergangsschienen. Harte Oberflächen, weiche Texturen und schier unendliche Muster- und Farbkombinationen bieten die perfekte Grundlage für eine einzigartige Bodengestaltung. Zusammen mit dem wirklich einzigartigen Produkt- und Dienstleistungsangebot von Interface haben Sie alles, was Sie brauchen, um neue Innenräume zu schaffen, in denen sich Menschen gerne aufhalten.

Unsere LVT-Designs sind immer mit unserer besonders wirksamen Sound Choice™ Rückenkonstruktion ausgestattet. Dadurch können auch harte Bodenbeläge den Geräuschpegel minimieren, um Räume für Konzentration zu schaffen. Zudem beinhalten unsere LVT-Bodenbeläge 39 % recycelte Materialien und sind damit eine nachhaltige Lösung für elegante Innenräume.

16dB

Außergewöhnliche Akustikleistung.

Speziell als integrierte Rückenkonstruktion für unsere LVT-Produkte konzipiert, verringert das akustische Rückensystem Sound Choice™ unerwünschte Geräusche sehr viel effektiver als für Hartbeläge üblich. Trotz der harten Oberflächen verbessern Sie die Raumakustik und fördern das Wohlbefinden sowie die Produktivität.

Design, das nicht verblasst.

Unser LVT besitzt eine Ceramor™ PU-Keramikperlschichtung zum Schutz der Oberfläche vor Kratzern und Abrieb. So schützen Sie das einzigartige Design und steigern die Langlebigkeit Ihres Bodenbelags.

Earthen Forms, Fresco Valley und Northern Grain verwenden Ceramor+™, das die Anforderungen von R10 erfüllt und eine Pendeltest Klassifikation von 36+ bei nassen Bedingungen sowie geringe Rutschgefahr aufweist.
